LET'S HIT THE ICE!

ICE SPORTS

Davos Klosters has a long tradition in ice sports – the first Davos ice rink opened back in 1869. Today, the region is the centre of Switzerland’s ice sport scene. This is ensured by one of the most beautiful ice hockey stadiums in Europe and other artificial ice rinks that can be used for ice skating, ice hockey, speed skating, curling and Bavarian ‘ice stock’ curling.

At the sports centre in Davos, you will find the mobile ice adventure landscape “Davos World of Ice” with countless attractions. In addition to a 300-metre-long, oval ice rink for skating and ice stock curling, the “Davos World of Ice” features a large central rink, where young and old can engage in the fascinating sport of ice hockey.

Tips:

- Sports centre / Davos: put your ice skates on and live your skating dream
- Seehofseeli / Davos: the beautifully situated ice rink is also open every evening
- Ice mini golf / Lake Davos: the view should not distract from the fact that the puck has to be pocketed with a hockey stick and a lot of feeling.
- Artificial ice rink / Klosters: practise skill and precision with a game of curling
- Ice rink / Davos Wiesen: prepared natural ice rink for skating, curling and Bavarian ‘ice stock’ curling

Families can answer this question on the two Foxtrail Tracing routes in Davos. The “Foxolino Cuolm” and the “Foxolino Striunau” each last independently about one and a half to two hours, but can also be combined as “Foxtrail Cuolm Striunau” can be completed in about two and a half to three hours. Participants can choose their own start time and use the Foxtrails individually. The Foxtrails are both in summer and in winter can be experienced.
